

## DUCKS ARE IN GREAT DEMAND

Dealers Are Unable to Keep Stock on Hand.

## EGGS ADVANCE WHOLESALE

WINTER APPLES ARE COMING INTO THE MARKET.

The demand for ducks for the last few days has been heavy and the dealers are unable to keep them in stock. A few come in from the Bear river country, but they are sold out in short order. Mallards were quoted at 20 cents a brace yesterday and today at 30 cents a brace. The wholesale price on spring chickens, live, advanced yesterday from 10 to 12 cents a pound on account of the scarcity of ducks, but no change was made in the retail price. There are few eastern eggs on the market and the wholesale price is quoted at \$2.50 per case. Utah eggs have also advanced during the week and are selling wholesale from \$5.50 to \$7.50 a case. This has not changed the retail price. They are steady at 20 cents a dozen and but few are sold for 25 cents. Utah cream cheese dropped half a cent yesterday, wholesale, and is now quoted at 12 cents.

There were no changes in the fruit or vegetable market yesterday and the dealers had a fairly good supply in stock. Apples of the winter season are coming in and are selling for \$1.25 a bushel. A few tomatoes were brought in yesterday, but the season is about over and they are the last of the crop.

## ARGUE SHOCKLEY CASE

Supreme Court Is Asked to Reverse Judgment of Lower Court.

The supreme justices yesterday heard arguments asking for a reversal of the decision of the district court. The case of James Shockley, charged with murder in the first degree. The man's attorney argued that in the previous trial the jury was improperly instructed and that the lower court erred in its instructions to the jury. Other technical points were considered and the court then took the case under advisement. A decision is expected in about ten days.

Shockley was arrested last winter for holding up a street car at First South street at Thirteenth East street one night and killing both the motorman and conductor.

## Court Notes.

Judge Lewis has adjourned his division of the Third district court until Thursday.

James A. Jensen, late of Denmark, now of Bluff Dale, was admitted to citizenship by Judge Hall yesterday.

The jury yesterday in two suits of Crane & Co. against George M. Morse and A. T. Lawrence, returned a verdict of no cause for action. The cases were over \$500 promissory notes in favor of the Crane company. Two complaints were filed originally, but it was later agreed to try the suits together.

Judge Hall disposed of the following cases yesterday: The case of John vs. John H. Lloyd, reset for Dec. 22, on motion of defendant's attorney, plaintiff's attorney consenting. In G. Wood vs. G. A. Gibbs et al., by consent of defendant's attorney the court ordered that plaintiff have judgment for \$523 and costs, a stay of execution of fifteen days being granted.

The jury in the \$2,000 damage suit of John W. Meyers against the Highland Roy Gold Mining company yesterday returned a verdict in favor of the plaintiff for \$2,000. Judge Morse granted the company sixty days' stay of execution. This is the second time the case has been tried. Meyers being awarded \$1,999 at the first trial, whereupon the company asked for a new trial. The case was then set for a new trial. Meyers had his leg broken while working at the company's smelter.

By consent, the former entry continuing the case of the State Bank of Utah against Aaron Garside et al. for the term was set aside and trial by jury being waived. Judge Hall rendered a verdict in favor of the bank for \$923.59 and \$75 attorney fees and costs. Action was brought to recover on a \$100 promissory note, executed Oct. 1, 1901, to run one year, bearing interest at 8 percent.

By consent of both sides, a former entry continuing for the term the suit of Henry E. Hanson against Aaron Garside was set aside by Judge Morse yesterday and trial by jury being waived. A judgment in the sum of \$700 and costs was rendered. Action was brought to recover \$1,200 damages and costs because Garside's land, destroying the grain hay and growing trees.

## SUPREME COURT IN SESSION.

Washington, Oct. 10.—The October term of the supreme court of the United States began today.

## CAN DRINK TROUBLE.

That's one way to get it.

Although they won't admit it many people who suffer from sick headaches and other ailments get them straight from the coffee they drink. The fact is, coffee is a stimulant and it proves if they're not afraid to leave it to a test, as in the case of a lady in Connellsville.

"I had been a sufferer from sick headaches for twenty-five years and anyone who has ever had a bad sick headache knows what I suffered. Sometimes three days in the week I could not sleep in bed, at other times I couldn't lie down the pain would be so great. My life was a torture and if I went away from home for a day I always came back more dead than alive. One day I was telling a woman my troubles and she told me she knew that it was probably coffee caused it. She said she had been cured by stopping coffee and using Postum Food Coffee and urged me to try this food drink."

"That's how I came to send out and get some Postum and from that time I've never been without it for it suits my taste and has entirely cured all of my old troubles. All I did was to leave off the coffee and tea and drink Postum in its place. This change has done me more good than everything else put together."

"Our house was like a drug store for my husband bought everything as he heard of to help me without doing any good, but when I began on the Postum my headaches ceased and the other troubles quickly disappeared. I have a friend who had an experience just like mine and Postum cured her just as it did me."

"Postum not only cured the headaches, but my general health has been improved and I am much stronger than before. I now enjoy delicious Postum more than I ever did coffee." Name given by Postum Co., Battle Creek, Mich.

"There's a reason," and it's worth finding out.

## MAKING WAR ON DEADLY BACILLI

Utah Health Officers Form State Association.

## VITAL TOPICS ARE DISCUSSED

METHODS PROPOSED TO PREVENT SPREAD OF CONTAGION.

Forty-three physicians and surgeons who are health officers in various cities and towns in the state assembled in convention in the city council chamber yesterday. The meeting was called to order at 10:15 o'clock in the forenoon by Dr. T. B. Beatty, secretary of the state board of health, who stated that the purpose of the session was to effect a permanent organization and to provide for annual meetings.

The following officers were chosen: President, Dr. G. L. Smart of Springville; vice president, Dr. E. K. Ward of Park City; secretary, Horace H. Smith of Salt Lake.

On motion of Dr. Phillips, Dr. Smart, Beatty, Allen, Bascom and Calderwood were appointed a committee with full power to act on all matters relating to the organization of the association, and to make recommendations to the next session of the state legislature.

Bascom Talks on Legislation. Dr. P. S. Bascom, president of the Utah State Board of Health, read a paper on "Public Health Legislation," which was followed by a discussion engaged in by Dr. Beatty, Phillips, Allen and Nahlquist.

In his address Dr. Bascom said: "Utah is still far behind many of the states in her health laws, and it is the duty of the state board of health and all auxiliary organizations to create public sentiment and educate the people so that they will demand not only better laws, but a strict enforcement of the same."

"It seems ridiculous to think that the great state of Utah should appropriate annually \$10,000 for its health services, which affects the lives and fortunes of each one of its citizens, and pays during the same period \$20,000 as bounty on coyotes."

"It has come to me that each one of you will appreciate the importance of a simple, inexpensive detention hospital in every city and town, with proper medical and nursing staffs. Many of us have had our sympathies aroused for the unhappy mental alien who, pending examination and commitment, is relegated to the county jail, as if his terrible affliction was a criminal offense."

Beatty on Disease Prevention. At the afternoon session Dr. T. B. Beatty delivered an extemporaneous address on "Prevention of Disease."

He began with a history of prevention at a time when disease was looked upon as a supernatural visitation and exorcisms and magic were employed to avert the terrible epidemics that prevailed. As the general intelligence increased, improved ways of living were adopted and the death rate, which in the seventeenth century was 70 per 1,000 population annually, began to decrease. Finally came the birth of sanitary science, the achievements of which have reduced the annual death rate of the most highly civilized countries of the world to less than 20 per 1,000 population. This vast reduction is an encouragement to confidence in the further eradication of diseases now known to be preventable. The room for this is illustrated by the fact that these diseases still destroy 50 percent of the population.

The modern discoveries of the causes and means of prevention were described, and the practical still confronting sanitarians discussed. These were described as chiefly consisting of the effective application of the knowledge already at hand.

The key to the problem, in the opinion of Dr. Beatty, is education on the part of the people in order that they may understand the facts and co-operate in the necessary measures. The framing of laws will be largely inadequate and futile without a supporting public sentiment. Information should be disseminated in every possible way. Public meetings for the discussion of public health questions should be held at intervals and the facts and facts of health should be always active in imparting the truths of the gospel of health. More important than all is the education of the rising generation. The nature of the cause and the prevention of diseases should be a compulsory part of the teaching in the schools. The widespread soil pollution and its influence upon the purity of well water was considered. The members of the convention were urged to put forth every effort in their power to inform the people of their communities to substitute pure water systems, which in most towns could be substituted for the surface water and the health of the community would be improved. So profuse a source of typhoid fever and other diseases in the state. This in many instances has already been accomplished with the resulting improvement in the public health.

The address evoked a general discussion on bacilli and sanitation.

## Doremus and Others Talk.

State Engineer A. F. Doremus read a paper on "Water Supply," which caused a discussion that was participated in by Dr. Beatty, Dr. Bascom and others. Mr. Doremus said the sources of water supply should be continually watched and that the water should be practiced, and every means ought to be used to prevent contamination.

A. H. Taylor of Eureka read a paper on the "Duties of the Health Officer." Dr. W. R. Calderwood of Logan presented the final paper of the afternoon, taking for his subject "Food and Dairy Supply."

The physicians then adjourned to a dark room, where Dr. Beatty showed some stereopticon slides illustrating the various forms of bacilli.

## MILITARY SURGEONS.

International Congress in Session at St. Louis.

St. Louis, Oct. 10.—The International Congress of Military Surgeons convened today at the World's fair grounds, with a large attendance of distinguished medico-military members from throughout the world. The congress is held in lieu of the one hundred and thirty-eighth annual meeting of the Association of Military Surgeons of the United States and will continue during the week. It is presided over by Medical Director John Cropper, Chief of the United States navy, assisted by Major James Evelyn Picher of the United States army.

The objects of the congresses are to unite all nations in the cultivation and maintenance of an international community of interests by which the services to the sick and wounded in war may be equalized, elaborated and perfected throughout the civilized world. There will be an extensive programme of papers and addresses upon military subjects, followed by discussions.

## STORM WARNINGS.

Washington, Oct. 10.—Storm warnings are displayed on the California coast from San Francisco to Eureka.

## STARTS WITH A RUSH

Business on the Opening Day Keeps Postal Telegraph Office Busy.

"Business started off with a rush," stated Division Superintendent W. P. S. Hawkes last evening in speaking of the Postal Telegraph & Cable company's opening day.

"Both incoming and outgoing business has been gratifying, and while I expected a good patronage, from the start, I am surprised at the business already transacted. Much of this has been commercial. We are able at present to put sixteen operators at work should it be required. Our messenger service as well as telegraph and cable system is open for patronage."

"For the present our hours will be from 7 a. m. to 3 a. m., but, of course, as soon as it is warranted we shall probably maintain a twenty-four-hour schedule. We have engaged an experienced corps of office employees in every department, and are prepared to give the public the best service possible."

## AWARDS GO INTO FUND.

School Premiums Received at State Fair Amount to \$150.

The \$150 received by the Salt Lake Public schools as awards for prize exhibits at the state fair has been placed in the "fair fund." This money is used to defray expenses of arranging school exhibits for fairs, and also to secure lecturers on pedagogical subjects. There was a balance to the fund's account of \$221.10 on April 27. Out of that the commencement expenses had been paid. The money is in charge of a committee of principals and teachers, which will meet shortly to reorganize, choose a treasurer and submit a statement of account.

## ORPHANS' HOME ANNUAL.

Reception Is Given—Indebtedness of \$1,900 Remains.

The annual meeting of the directors of the Orphans' Home and Day Nursery was held yesterday at the home on South State street. The meeting was largely social, opening with a reception to the old members of the same.

The new wing of the building recently completed was opened. The amount expended in the past year on the remodeling of the building was \$2,100, of this amount an indebtedness of \$1,900 remains. The historian read a report of the work of the past year. Nearly 100 of the members and friends of the board were present.

## OHIO COAL MAGNATES

WILL FIGHT THE UNION

Cincinnati, O., Oct. 10.—The Employers' association executive committee, after a protracted discussion of the coal strike, today issued a statement declaring that the association will support the coal dealers to the last in the present conflict and will if necessary today break up the strike. The association will not consent to arbitration nor to confer with strike supporters. The statement given are that the union is endeavoring to enforce a closed shop, which the committee declares is un-American and against the interest of the public.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me."

"Better health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems pleasant and easy."

"Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."

—Mrs. B. A. BLANCHARD, 422 Broad St., Nashville, Tenn.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

A Severe Case of Womb Trouble Cured in Philadelphia.

"DEAR MRS. PINKHAM:—I have been cured of severe female troubles by the use of Lydia E. Pinkham's Vegetable Compound. I was nearly ready to give up, but seeing your advertisement I purchased one bottle of your medicine, and it did me so much good that I purchased another, and the result was so satisfactory that I bought six more bottles, and am now feeling like a new woman. I shall never be without it. I hope that my testimonial will convince women that your Vegetable Compound is the greatest medicine in the world for failing of the womb or any other female complaints."

—Mrs. MAY COOK, 2660 Birch St., Philadelphia, Pa.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Her address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it.
